TWISTER NEW fire fighter's boots

Tried and trusted thousands of times. Now NEW.

The TWISTER success story enters the next round. As a fire fighter's boot, it has proved its value thousands of times. With its new functions, the TWISTER NEW is even better suited to the fire fighter's tough daily grind.

Thanks to the special BOA lacing system, you can pull on the TWISTER NEW in a flash, and it matches the shape of the wearer's feet perfectly. And you can take it off again just as quickly by loosening the push-and-turn button.

Sympatex membranes and hydrophobic waterproof leather make the TWISTER NEW essentially waterproof. The multilayer sole construction, interstratified with air cushions, provides excellent insulation against heat and cold. A steel insert in the sole as well as a steel cap in the toe area protect your feet against injuries.

TWISTER NEW - in a class of its own.

- Absolute lightweight: only 2,700 g (per pair, size 42)
- Attractive modern design
- Optimized wearing comfort thanks to comfortable padding
- Durable and easy to care for thanks to coated, stainless steel cord

■ The TWISTER NEW impresses with numerous highlights

Pull on in a flash thanks to the BOA lacing system.

- 1) Pull the push-and-turn button.
- 2) Pull the leather tongue forwards and put the boot on.
- 3) Push the push-and-turn button.
- 4) Use the edge to close the push-and-turn button until the boot fits perfectly!

TWISTER NEW

Fire fighting boots
