## PV9210 VIKING Inflatable Lifejacket 275 N, ISO approved

### **VIKING 275 N is a Navy Seals lifejacket lookalike made for civilian use.**

VIKING 275 N has the same design as the model we made for the Navy Seals. This lifejacket is for civilians and it comes with a SOLAS approved light, a whistle, a crotch strap for added safety, lifting becket for effective retrieval, buddy line, spray hood and a pocket for a personal locator beacon. The asymmetrical chambers and high buoyancy offer faster and better turning capability. Remember to select a 275N asymmetrical lifejacket when extra weight is carried, e.g. heavy tool belt.

HALKEY ROBERTS® is a registered trademark of the Halkey-Roberts Corporation.

#### **Approvals**

EN ISO 12402-2/12402-6
