

INFLATABLE DECONTAMINATION UNITS

Inflatable decontamination units are used for emergency decontamination in cases of exposure to hazardous waste materials, chemical spills, as well as chemical and biological WMDs. Commonly used as a standard equipment for Hazmat response teams.

Rapid assembly

One person to deploy

Integrated gloves, nozzels and shower system

Removable/replacable shower curtain and bottom

STANDARD EQUIPMENT - SUPPLIED TOGETHER WITH EACH UNIT

INSIDE VIEW

Integrated latex gloves

Integrated water distribution system

Hand held shower (two replaceable shower heads)

SINGLE AMANDA

BIG MARTHA

INSIDE VIEW

5x Integrated full-coned 120° angle nozzles

(covers the whole inner area) with valve inside for opening/closing

2 x Quick coupling for dewatering of distribution system

OUTSIDE VIEW

Storz D coupling for water supply
