

# PRO™ HI-VIS JACKET HARNESSES

## BE SEEN WITH THE HIGH VISIBILITY PRO™ JACKET HARNESS.

- Integrated PRO™ harness and Hi-Vis work vest allows fast, simple and safe donning – just like putting on a jacket.
- Neon yellow work vests designed with 50mm wide reflective for high visibility.
- Lightweight polyester fabric provides breathability for enhanced comfort.
- D-ring location outside of vest ensuring fast and safe connections. Rear D-ring held in place with keepers preventing it from slipping into the vest.
- Internal mesh lining and snap attachments hold the shape of the vest and allow easy inspections of webbing and harness components.
- Adjustable Snap Straps hold the vest to the harness and eliminate bunching of the vest.
- Soft elastic edging around the arms and neck reduce chaffing for added comfort.
- Built-In Pockets, chest pockets with pen holder and lower pockets provide convenient and safe item storage.
- Meets all applicable CE standards EN361 and EN471.

# PRO™ HI-VIS JACKET HARNESSES

The combination work vest and harness provides the user the safest option for working today. The PRO™ harness Hi-Vis Vest incorporates all the safety and features of our best selling PRO™ harness with a completely custom designed Hi-Vis vest. The integration of the 2 elements provides the user with the ultimate fit, comfort and safety that personnel have become accustomed to from Protecta®.

The PRO™ Hi-Vis Vest allows the user to don their harness like a jacket, saving time and adding productivity throughout their day, as well as no-tangle donning and comfortable security.

The work vest is constructed from lightweight, breathable, yet extremely durable polyester with a heavy-duty smooth operating zipper. It is ideal for those working at heights in or around construction, utility or traffic applications as provides a 2 in 1 solution for those requiring reflective work wear with their fall protection.
